

NXN RECORDINGS

NXN Recordings was founded by Tomas Linnes, Manager of Naxos Norway, in Oslo in 2019 to release Norwegian genre-crossing projects. The label aim to put out interesting, innovative and original music that bends, explores and challenges the established genres. There's a lot to discover in the catalogue from neo-classical, ambient, jazz, contemporary music, and everything in between. The releases have the recognizable "Cool Nordic sound" in common, still the music has proven to have global appeal.
